NEW MEXICO WATER SERVICES COMPANY
TEST PERIOD ENDED 6/30/2027
INDEX TO EXHIBITS

LINE NO.	TITLE	SCHEDULE NO.
1	**Series A - Summaries of Proposed Cost of Service**	
2	Summary of the overall cost of service and the claimed revenue deficiency:	A-1
3	Summary of the revenue increase or decrease at the proposed rates by rate classification	A-2
4	Summary of the cost of service adjustments by functional classification	A-3
5	Summary of Rate Base	A-4
6	Summary of total capitalization and the weighted average cost of capital	A-5
7	**Series B - Original Cost of Plant**	
8	Original cost of plant in service by primary account	B-1
9	Original cost of plant in service by detail account	B-2
10	Construction work in progress	B-3
11	Allowance for funds used during construction	B-4
12	Plant held for future use	B-5
13	**Series C - Accumulated Provision for Depreciation and Amortization**	
14	Accumulated provision for depreciation and amortization by functional classification	C-1
15	Depreciation rate study	C-2
16	**Series D - Original cost of plant in service adjusted to the cost of reproduction as a going concern value (Optional)**	
17	Original cost of plant in service adjusted to the cost of reproduction as a going concern and other elements of value	D-1
18	Cost of reproduction as a going concern value adjusted for age and condition	D-2
19	**Series E - Working Capital Allowance**	
20	Cash working capital allowance	E-1
21	Materials and supplies, prepayments, and deferred charges	E-2
22	Fuel stock inventories and fuel stock expenses	E-3
23	Amounts of working capital items charged to operating and maintenance expenses	E-4
24	**Series F - Other Property and Investments**	
25	Other property and investments	F-1
26	**Series G - Capitalization, the Cost of Capital, and the Overall Rate of Return**	
27	Capitalization, the cost of capital, and the overall rate of return in conformance with an original cost Rate Base	G-1
28	Capitalization, the cost of capital, and the overall rate of return in conformance with a cost of reproduction as a going concern and other elements of value Rate Base - Optional	G-2
29	Embedded cost of borrowed capital with term of maturity in excess of one year from date of issue	G-3
30	Cost of short-term borrowed capital including revolving credit agreements	G-4
31	Embedded cost of preferred stock capital	G-5
32	Common stock equity capital	G-6
33	Historical activity in common stock, paid-in capital, and retained earnings	G-7
34	**Series H - Expenses of Operation**	
35	Operation and maintenance expenses	H-1
36	Fuel or power purchased for pumping	H-2
37	Payroll distribution and associated payroll taxes	H-3
38	Expenses associated with advertising, contributions, donations, lobbying and political activities, memberships, and outside services	H-4
39	Other administrative and general expenses	H-5
40	Depreciation and amortization expense	H-6
41	Taxes other than on income	H-7
42	Federal and state income taxes	H-8
43	Reconciliation of net income per books to net income for income tax purposes	H-9
44	Income tax effect as a result of applicant joining in a consolidated federal income tax return	H-10
45	Accumulated tax deferrals	H-11
46	Investment tax credits	H-12
47	Expenses associated with affiliated interests	H-13
48	Expenses associated with non utility services	H-14
49	Explanation of the adjustments to expenses of operation. In this schedule the applicant shall state in a brief narrative explanation the nature of each adjustment made to the book balances of operation and maintenance expenses	H-15
50	**Series I - Construction Program**	
51	Construction program	I-1
52	Sources of construction funds	I-2
53	**Series J - Fully Allocated Cost of Service Study**	
54	Allocation of Rate Base (Jurisdictional)	J-1
55	Allocation of Rate Base (Functional)	J-2
56	Allocation of Rate Base (Classification)	J-3

RECONCILIATION OF NET INCOME BOOKSTO TAX

NMWS files its taxes on a consolidated basis at the Parent Company level. A reconciliation of net income books to tax is not available at the subsidiary level, or specific to the NMWS sewer systems. The federal income and state income taxes requested for recovery in this docket are calculated on a normalized basis, and reflective of the operations unique to NMWS sewer systems included within this filing.

NEW MEXICO WATER SERVICES COMPANY
TEST PERIOD ENDED 6/30/2027
EXPLANATION OF PROPOSED RATES

New Mexico Water Services Company proposed to maintain the same rate design and uniform tariff pricing as currently in place for the New Mexico systems. Rates have been designed to maintain the same mixed of fixed and variable revenue, while updating meter equivalency factors to appropriate standards. This wil result in more significant increases for customers with larger meter sizes.

NEW MEXICO WATER SERVICES COMPANY
TEST PERIOD ENDED 6/30/2027
DESCRIPTION OF COMPANY

I. The Company

New Mexico Water Service Company ("New Mexico Water," "NMWSC," or the "Company") is a New Mexico corporation formed pursuant to NMSA 1978, Sections 53-11-1 through 53-18-12. The Company is a public utility subject to the jurisdiction of the New Mexico Public Regulation Commission ("NMPRC" or "Commission") under the Public Utility Act and provides regulated public utility service in Valencia County, New Mexico.

NMWSC is a wholly owned subsidiary of California Water Service Group, Inc. ("Group"), a publicly traded holding company (NYSE: CWT) headquartered in San Jose, California, whose principal business is the ownership of the common stock of regulated water and wastewater utility companies. Group is comprised of five operating subsidiaries: California Water Service Company, Hawaii Water Service Company, New Mexico Water Service Company, Washington Water Service Company, and Texas Water Service. NMWSC, together with the Hawaii, Washington, and Texas operating companies, is managed within Group's "Home States" group. California Water Service Group is the sole holder of the Company's outstanding common stock.

The Company acquired its New Mexico utility operations in 2002 from Rio Grande Utility Corporation ("RGUC") pursuant to a Commission-approved purchase and sale of assets. The Company's principal office in New Mexico is located at 386 E. Rio Communities Blvd., P.O. Box 1179, Belen, New Mexico 87002.

The officers and directors of the Company are reported in the Company's most recent Annual Report to the Commission (year ended December 31, 2024), submitted in this proceeding as Schedule P-2.

II. Scope of Operations by Service Area

The Company's sewer (wastewater) utility operations that are the subject of this Application, recorded within Department 602, comprise two separate sanitary sewer systems located in Valencia County, New Mexico: the Rio del Oro system and the Rio Communities system. The two systems are physically and hydraulically independent of one another. Each has its own collection network and lift stations, each is served by its own wastewater treatment plant, and each discharges under its own National Pollutant Discharge Elimination System ("NPDES") permit. There is no physical interconnection between the two collection networks or treatment plants.

Rio del Oro (RDO) System.

The Rio del Oro system serves the northern portion of the Company's Valencia County service territory, in the vicinity of Los Lunas. The system originated in 1985 to serve the University of New Mexico–Valencia Campus and neighboring residential and commercial development, and was acquired by the Company in 2002. The RDO collection system presently serves seven developments, five school campuses (including the UNM–Valencia campus), and, as of December 31, 2025, 1,578 residential customers. It consists principally of 12-inch and 15-inch PVC gravity interceptors together with pressure forcemains served by five lift stations, all conveying flow to the Rio del Oro Wastewater Treatment Plant ("RDO WWTP"). The RDO WWTP is a membrane

the Rio del Oro Wastewater Treatment Plant ("RDO WWTP"). The RDO WWTP is a membrane bioreactor (MBR) facility with an annual average day flow of approximately 0.20 MGD and an average-day-maximum-month treatment capacity of 0.30 MGD. The facility discharges under EPA NPDES Permit No. NM0030414 and operates under New Mexico Environment Department Discharge Permits DP-356 (Class 1A Reuse) and DP-529 (sludge disposal).

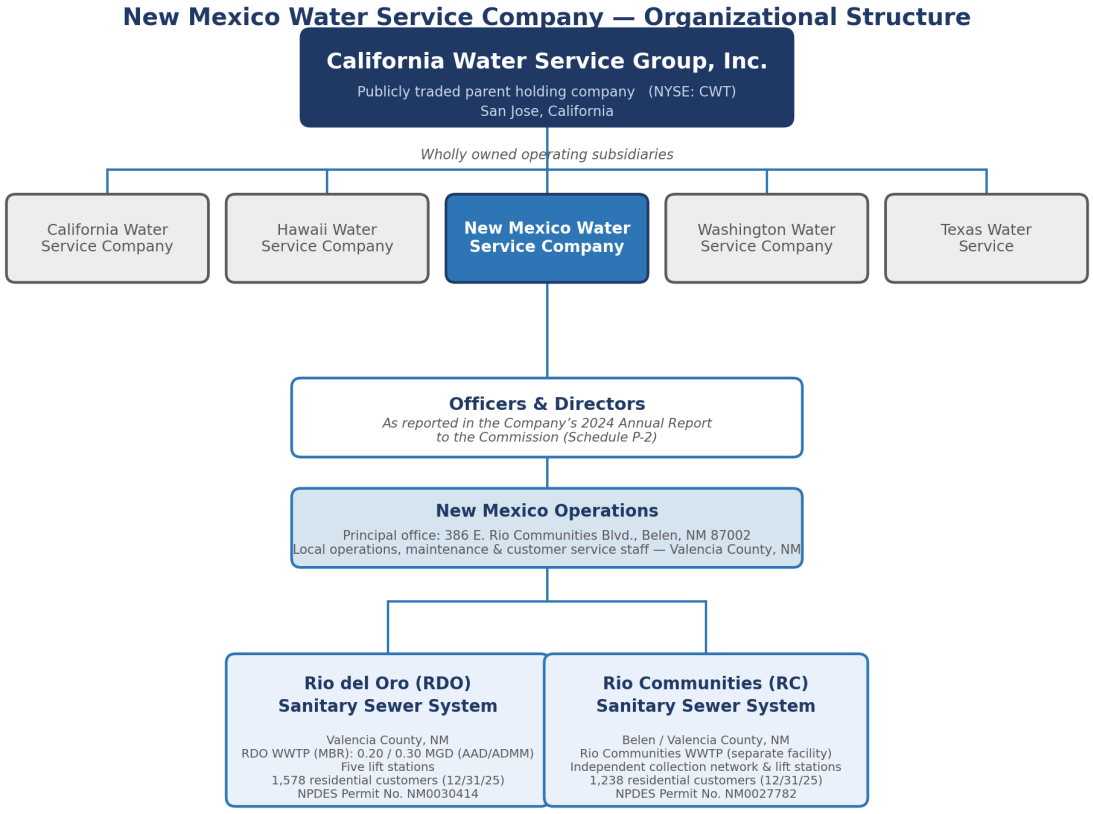

Rio Communities (RC) System.

The Rio Communities system serves the Rio Communities area and surrounding areas to the south, in the vicinity of Belen. The RC system is wholly independent of the RDO system, with its own gravity and pressure collection network and lift stations, and is served by a separate treatment facility, the Rio Communities Wastewater Treatment Plant ("RC WWTP"), which discharges under its own NPDES permit (No. NM0027782). As of December 31, 2025, the RC system served 1,238 residential customers.

In total, the Company served 2,864 sewer customers across both systems as of December 31, 2025, inclusive of residential, commercial, and industrial accounts.

III. Organizational Chart

The following chart depicts the Company's corporate ownership and operating structure, including its relationship to its parent, California Water Service Group, Inc.; its officers and directors as reported in the Company's 2024 Annual Report to the Commission; and the two New Mexico sanitary sewer systems described above.

Annual Average Weekly Wage and Year-Over-Year Change

Year	Q1 AWW	Q2 AWW	Q3 AWW	Q4 AWW	Annual Avg AWW	YoY Change ($)	YoY %	Index (2020=100)	Notes
2020	$2,118	$1,541	$1,800	$1,894	$1,838			100.00	*COVID-19 base year*
2021	$2,070	$1,617	$1,863	$1,927	$1,869	$31	1.69%	101.69	*Recovery period*
2022	$2,100	$1,734	$1,861	$2,091	$1,947	$77	4.13%	105.89	
2023	$2,284	$2,005	$1,789	$2,134	$2,053	$107	5.47%	111.68	
2024	$2,434	$2,186	$1,970	$2,274	$2,216	$163	7.94%	120.55	*Latest full annual data*
2025	$2,454	$2,246	$2,002	*n/a*	$2,234	$18	0.81%	121.53	*Q1-Q3 actual; Q4 not yet released*
Trailing 4 Quarters (Q4-2024 → Q3-2025) vs. Prior 4 Quarters (Q4-2023 → Q3-2024)					$2,244	$63	2.89%		*Trailing 4Q reading; shows recent deceleration*

Escalation Factor Options

Option	Method	Period Covered	Annual Rate	Rationale / Considerations
1	4-Year CAGR	2020 → 2024	4.78%	*Geometric mean over full available period; conservative; includes COVID-distorted 2020 base; smooths small-sample volatility*
2	3-Year CAGR	2021 → 2024	5.84%	*Geometric mean excluding COVID-distorted 2020; captures sustained post-pandemic utility wage pressure in NM regional labor market*
3	2-Year CAGR	2022 → 2024	6.70%	*Reflects only 2022-2024 acceleration; not representative of long-run trend*
4	Latest Annual	2023 → 2024	7.94%	*Single most recent full-year YoY; subject to small-sample volatility;*
5	Trailing 4Q YoY	Q3-2024 → Q3-2025	2.89%	*Most current 12-month experience; shows deceleration vs. annual rates; may understate forward run-rate due to small-sample timing*
6	BLS ECI Wages	National, Q1 2026	3.40%	*National Employment Cost Index for civilian workers; quality-adjusted; least volatile but does not reflect NM utility regional labor market*

Selected Escalator and Application to Cascade Periods

Selected Method: BLS ECI Wages **Annual Rate:** 3.40%

New Mexico Water Service Company — Sewer
Purchased Power Escalation Methodology

Source: U.S. Energy Information Administration (EIA), Electricity Data Browser, Series ELEC.PRICE.NM-COM.A (New Mexico, Commercial Sector, Annual Average Retail Price). URL: https://www.eia.gov/electricity/data/browser/. Underlying data: EIA Form 861, Annual Electric Power Industry Report.

Annual Average Retail Price and Year-Over-Year Change

Year	NM Commercial Avg Price (¢/kWh)	YoY Change (¢/kWh)	YoY %	Index (2020=100)	US Commercial (¢/kWh)	US YoY %	NM Premium/(Discount) vs. US	
2020	10.28			100.00	10.59		(2.9%)	
2021	10.80	0.52	5.06%	105.06	11.22	5.95%	(3.7%)	
2022	11.07	0.27	2.50%	107.68	12.41	10.61%	(10.8%)	
2023	10.68	(0.39)	(3.52%)	103.89	12.59	1.45%	(15.2%)	
2024	10.54	(0.14)	(1.31%)	102.53	12.75	1.27%	(17.3%)	
2025	11.23	0.69	6.55%	109.24	13.41	5.18%	(16.3%)	

Escalation Factor Options

Option	Method	Period	Annual Rate	Rationale / Considerations
1	NM Commercial 5-Year CAGR	2020 → 2025	1.78%	*Long-term geometric mean over full available period; smooths volatility but understates recent inflection from PNM rate change*
2	NM Commercial 3-Year CAGR	2022 → 2025	0.48%	*Includes 2023-2024 anomalous decline; depressed by FPPCAC pass-through dynamics not representative of forward direction*
3	NM Commercial 2-Year CAGR	2023 → 2025	2.54%	*Bridges 2023-2024 decline with 2025 rebound; reflects net trend across the regulatory transition; provides reasonable forward run-rate*
4	NM Commercial Latest Annual	2024 → 2025	6.55%	*Single most recent year; reflects PNM Phase 1 rate change impact (effective 7/1/2025); aggressive for forward use, but partial-year effect suggests Phase 2 will add additional pressure*
5	US Commercial 5-Year CAGR (national cross-check)	2020 → 2025	4.84%	*National benchmark; NM-specific rate is preferred given NMWSC operates within NM service territory*
